

MYTHICAL CHAMONIX MONT-BLANC

Making History

Mont-Blanc and the valley of Chamonix... are above and beyond one's wildest expectations. I cannot imagine anything in nature more stupendous or sublime.
Charles Dickens

Chamonix, the cradle of Alpinism, glaciology and skiing, is a truly extraordinary place where technology and pastoralism, contemplation and wild passion, art and science go hand in hand. Nowhere else is there such a diversity of peaks, needles, pyramids, mounts and glaciers, or such a succession of prairies, forests, grassland, sheer rock, ice and everlasting snow... In this unique site, human passions, sublimated by Mont-Blanc, have converted this former Priory (le Prieuré) into one of the world's most renowned resorts.

Housed in the historic Chamonix Palace, the Musée Alpin retrace two centuries of life in the valley through an extensive and beautiful collection

MYTHICAL PLACE

Chamonix valley, a way of life

7 REASONS TO CHOOSE OUR RESORT

Chamonix Mont-Blanc: a dependable destination attractive to all types of clients.

01 THE TOP OF EUROPE

Chamonix Mont-Blanc is located at the foot of Mont-Blanc, Europe's highest summit (4,810 m / 16,000 ft). **The exceptional natural surroundings have made the Chamonix valley one of the most visited natural sites in the world.**

02 A CHARMING COSMOPOLITAN RESORT AND TRADITIONAL HAMLETS

Chamonix is a mountain community of 10,000 inhabitants; **a resort open all year round** where tradition and modern facilities live comfortably side by side. The architectural heritage has been preserved, giving the resort its unique atmosphere. Summer is the best time of year to partake in the Savoyard lifestyle; festivals and holiday celebrations take place throughout the season. The annual "Fête des Guides" on the 15th of August is by far the most popular event. There are 14 bars, 80 restaurants, 100 shops and 7 discotheques making Chamonix a lively town, both day and night. For those who have the gaming fever, the Chamonix Casino offers black jack, roulette and slot machines in the purest French tradition.

03 IDEAL STOPOVER ON THE FRENCH ROUTE BETWEEN LAKES AND MOUNTAINS

Located between Lake Geneva and the Mediterranean, Chamonix Mont-Blanc is not only a destination but **an ideal stopover** on a travel programme to relax and admire the breathtaking scenery. Late spring or early autumn are perfect seasons to take in the sights. Discovering the Mer de Glace, France's largest glacier, while riding the red cog wheel train of Montvers, is one of the most popular attractions. Not to be missed is the Aiguille de Midi cablecar, the highest in the world, as it climbs to an altitude of 3,842 m (12,605 ft) for incredible closeup views of the world of rock and ice that make up the Mont-Blanc. ...The next best thing to climbing the mountain!

04 SPORTS, CULTURE AND LEISURE ACTIVITIES (RAIN OR SHINE)

More than 46 different sports are practiced in the Chamonix valley during the summer season including hiking, mountaineering, paragliding, white-water sports... just to name a few. During rainy days, a large sports complex offers: sports hall, indoor ice rink, 19 tennis courts (quick and clay) including 4 indoor, squash courts, a swimming pool complex with water-slide and fitness centre (saunas, Turkish baths, solarium). Throughout the valley, there is a large choice of museums and exhibitions, ensuring a culturally historic and artistic dimension.

05 TEEING OFF

Robert Trent Jones Senior designed the **18-hole golf course** at the foot of Mont-Blanc and is frequently referred to as one of the most beautiful in Europe. The par 72 course boasts a combination of strategy and subtlety along with incomparable scenery. On the grounds are a pro shop and a 26-stand driving range (8 covered stands). Located in Les Praz only 3 kilometres from town, the Chamonix Golf is open from May to November.

06 NATURE, NATURE EVERYWHERE...

With **330 km of marked paths**, hikers of all levels are invited to discover the valley by foot; from pleasant strolls to demanding alpine approaches. Altitude restaurants and mountain huts dot the landscape adding warmth and good food to the atmosphere.

07 A DEPENDABLE DESTINATION, ATTRACTIVE TO ALL TYPES OF CLIENTS

Whether for short breaks or entire weeks... for sports, leisure or discovery... for sustained efforts or 'nice & easy' activities... Chamonix Mont-Blanc is one of the rare alpine resorts able to satisfy each and everyone's taste and expectations. From May to September, **Chamonix is an ideal location for the most demanding of clients.** "Love at first sight" ideas: honeymoons, short breaks, golf weekends, special tours for seniors, kids' weeks, hiking adventure tours, high mountaineering initiation programs.

MYTHICAL VALLEY

Chamonix valley round-up

For more than 200 years, Chamonix Mont-Blanc has been a popular destination for international travellers attracted to the exceptional sightseeing possibilities. A variety of lifts, cablecars and mountain trains allow the visitor to intimately experience the alpine beauty of the valley.

A VARIETY OF STARTING POINTS

The Mont-Blanc Tramway, the Montenvers train, the cable cars of the Brévent, Flégère, Le Tour, Grands Montets and Aiguille du Midi... all of these lifts allow access to the starting points of a wide range of walks and hikes. Quickly and with ease, the lift system in the Chamonix valley enables the hiker/visitor to reach a unique alpine environment of shaded forests, scintillating glaciers, alpine meadows and dramatic peaks. All these elements - plus the crisp mountain air - make up a true "nature" experience.

DIZZYING HEIGHTS

Known as the world capital of mountaineering, the Chamonix valley offers fantastic high mountain terrain both inviting for the beginner as well as challenging for the expert. Mountaineering tours and outings are scheduled from June to September. Introductory lessons and initiation courses are available throughout the entire summer season.

SOMETHING DIFFERENT

Hiking in the company of a glaciologist to discover the life and characteristics of the Argentière glacier from Lognan to the Grand Montets. Conferences, films and excursions. No mountaineering experience required; ideal for families.

www.compagniedumontblanc.fr

HIKING: NATURE AT ALL LEVELS

The Chamonix valley maintains **330 km of marked trails** offering a variety of hikes designed to satisfy ramblers of all levels. Day excursions, overnight hikes, week-long treks...

Pleasant walks past picturesque hamlets and along alpine lakes or strenuous ascensions up breathtaking mountain passes... There is a nature hike for all levels that can be done alone or accompanied. Over the past 40 years, all land above 2,000 m has been classified as a nature reserve and consequently protected. **Do not miss our many and incredible mountain lakes.**

TWO MOST FAMOUS SIGHTS

1 THE AIGUILLE DU MIDI.

The Aiguille du Midi cable car is located in the centre of Chamonix. The first section takes visitors to the Plan de l'Aiguille station at 2,317 m. The second section goes to the top station and the summit of the Aiguille at 3,842 m. From here, an unforgettable view of the Mont-Blanc range unfolds all around. On a clear day, it is possible to see the Monte Rosa, the Grand Combin and even the Matterhorn! **Only in Chamonix can you go so high - and for such a view in only 20 minutes!**

In the summer, it's a favourite pastime to watch and admire technical rock climbers make their way up the south face of the Aiguille du Midi while rugged mountaineers can be spotted reaching the summit from the icy north face. Italy can be reached by taking a gondola which soars over the Valley Blanche glacier for more than 5 km, arriving at the Helbronner cable car. A cable car change takes visitors down to Courmayeur. (The gondola trip lasts 40 minutes, traversing only in optimum weather.)

2 THE MONTENVERS/LA MER DE GLACE

An exceptional sightseeing excursion on the nostalgic red cog railway of Montenvers takes visitors directly up to the Mer de Glace glacier - meaning "sea of ice". Located at 1,913 m, the Mer de Glace is 7 km long and 200 m thick with a surface dimension of 40 km². Also worth visiting is the crystal gallery, a wildlife exhibition, an ice garden and the famous ice grotto carefully carved each year into the heart of the glacier (100 m long). Access to the grotto is by small gondolas departing from the station platform (arrival

in less than 5 minutes). Good to know: The Montenvers station is located directly in the centre of town. Train departure every 20 minutes in high season and every 30 minutes in low season. Closed mid-November to mid-December. Duration of a one-way trip is 20 minutes for 5.5 km. Both the Plan de l'Aiguille (1st station on the Aiguille du Midi lift) and the Mer de Glace are excellent departure points for many of the marked trails and high mountain routes located in this part of the valley.
